29th -31st July, 2019

CCAT Thailand (CRaMA + AmCRM)

Commercial Repatriation and Medical Assistance (CRaMA) and Aeromedical Crew Resource Management (AmCRM) is a new course for CCAT 2019 that are aimed for doctors, nurses and **other medical assistance or travel insurance professionals** who require an in depth understanding of the logistic and operational aspects of organizing successful commercial repatriations.

AmCRM is a unique Human Factors course covering the origin and evolution of errors and mishaps which can occur in aeromedical practice, and how to avoid or mitigate them.

The 3 days course will cover the topics of introduction of World travel and health, structure of the industry, relationship with travel insurance, medicolegal aspects, duty and standard of care, complexities of case management overseas, risk analysis, systems to prevent errors and failings, logistics and medical management, repatriation demographics, security and duty of care to transport staff with sections of simple and major complex case studies in groups.
